HISTORY

Ses Kimya A.Ş.

Founded in 1999, Ses Kimya A.Ş. is a manufacturing company specialized in personal care, baby care, cosmetics, and dermocosmetics. With its strong R&D infrastructure and modern production facilities, the company develops and manufactures products in accordance with high quality standards.

Managing all processes in-house—from formulation development to mass production—Ses Kimya A.Ş. offers product solutions centered on skin health, safety, and sustainability. With a wide product portfolio ranging from baby and sensitive skin products to dermocosmetic series, the company professionally responds to diverse market needs.

Operating in compliance with national and international quality standards, our company currently markets its products successfully in 18 countries, providing brands and business partners with reliable, flexible, and scalable manufacturing solutions.

With its science-based approach, experienced team, and long-standing production expertise, Ses Kimya A.Ş. continues to be a strong part of sustainable growth in the personal care and dermocosmetics industry.

We Produce with Science, We Deliver with Confidence.

OUR VISION

In the modern world of race for the championship, the company strives to be one of the best companies in terms of the services provided, to implement an individual approach to each customer.

OUR MISSION

Production of effective, high-quality and environmentally friendly products that meet the world's standards and customers' expectations.

OUR PROUD

Ses Kimya A.S. is proud to be the first company in Turkey which succeeded in the development of environmentally friendly road reagents when fighting against snow and ice-slick. At present, our research and development department continues to develop new products to be used in the aviation sector aimed for fighting an erosion.

For more information please visit our web site www.snowfighter.com.tr

PRIVATE LABEL

In addition to its own trade marks Ses Kimya A.S. offers a full range of services for the development and production of household chemicals, home cleaning products, cosmetic products and personal care products of assured quality under Private Trade Mark.

OUR TEAM

The success of our company depends on people, people with a vision.

They generate ideas, concepts and products, which bring tangible results to our customers and to our company.

We have an international sales department team.

Each sales manager is responsible for certain markets.

GEOGRAPHY OF OUR SALES

Currently we export our products to 18 countries, mainly they are GCC countries, Middle East countries, some countries of Latin America, some countries in North, Central and South Africa, some EU and CIS countries, countries of the former Soviet Union.

OUR LABORATORY

Our products are developed in the laboratory, subjected to tests and analysis and then launched into production. Development is carried out by highly qualified specialists. At each stage of the technological process, there is a careful monitoring. Constantly we develop new products and improve existing formulas and recipes.

OUR CERTIFICATES

Absolutely all procedures and processes are regulated by the quality management system in accordance with **ISO 9001:2008**.

In addition to this, all products are produced in accordance with the guideline on good manufacturing practice (GMP) in accordance with **ISO 22716:2007**.

The Management System of our company comprises the quality assurance, environmental protection and industrial safety.

All formulated requirements are reflected in our production and business results.
